Re: 1971 Resident Statistical Report

The ensuing is a basic Resident Statistical Report for the period January 1st, 1971 to December 31st, 1971 and for clarification purposes is divided under the following sections,

- a) New Admissions during 1971
 - Deaths
 - Discharges.
- b) Municipalities of Residents
 - New Admissions
 - Residents in the Home
 - Residents in Hospital
- c) Waiting List
 - Peel Manor
 - Sheridan Villa

It is respectfully pointed out at this time that while Section b) shows the total number of Residents as 215 and our Bed capacity is 228. This is due to the fact that unfortunately Peel Manor does lack portability in its care areas, thus not enabling one particular area to be changed in order to accommodate or meet the demands of another area. For example Special Care, and as can

be seen in Section c), we are not at this time experiencing numerous requests for Male Special Care, this being the area where the vacancies exist. However, this is not to say that the requests for Special Care will remain dormant, for as experience has shown, the care area requests fluctuate most unpredictably, and therefore it is fully anticipated that we will have the area at full capacity within the very near future. In essence we are at full capacity and will continue to process Applications and admit Residents as expediently as is feasible, as well as endeavour to provide the care, services, activities, etc., for which our Senior Citizens are so deserving.

Sheridan Villa requests for Admission are ever increasing and no doubt will continue to do so as the Building progresses and again it is respectfully suggested that when Sheridan Villa is ready for occupancy, the requests for Admission will exceed the bed accommodation available.

It is sincerely trusted that the information contained in this report will be of a beneficial nature and we certainly would welcome as well as be more than pleased to answer any enquiries, etc., pertaining to a phase or phases of the operation and Administration of our Homes for the Aged.

Respectfully submitted,

"Wm. C. Fair"

Wm. C. Fair,
Administrator.

FEBRUARY REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Peel Memorial Hospital Board begs to report as follows:

1. Activity for Year 1971

Peel Memorial Hospital budgeted for 135,800 patient days and actually experienced a total of 133,085 patient days. In addition, there were 10,520 newborn patient days as compared to a budget in 1971 of 10,000 newborn patient days.

The patients during 1971 came from the following municipal areas:

Municipal Area	Percentage
Town of Brampton	44.1%
Town of Mississauga	14.8%
Township of Chinguacousy	21.5%
Township of Toronto Gore	.3%
Other Peel County	4.4%
Total Peel County	85.1%
Halton County	6.2%
York County	2.0%
Other	6.7%
	100%

Each month during 1971 saw an average of 1,129 adult-child admissions plus an average of 142 births. Out-patient visits averaged 8,472 per month.

Subject to adjustments found necessary as a result of the annual audit, the following financial statistics have been compiled.

Total income during 1971 was \$7,981,681, with total operating expenses including depreciation of \$8,096,681. The latter figure compared to 1971 operating budget of \$8,007,748 in expenditures. Cost per patient per day budgeted at \$51.50, actual cost resulted in \$50.87.

Copies of the final audited financial reports for the year 1971 will be submitted to the Clerk Treasurer of the County following their presentation to the annual meeting in March, 1972.

2. 1972 Operating Costs

Hospital officials are currently negotiating with Ontario Hospital Services Commission to conclude the amount in the 1972 operating budget that will be shared by them. Indications thus far appear that considerable economic restraints can be expected in the year 1972.

3. The Annual Meeting of Peel Memorial Hospital Board will be held on Thursday, March 16, 1972.

Five elected governors positions will have become vacant by this date. These positions will be filled at the Annual Meeting. In addition to the usual order of business, the Deputy Minister of Health has accepted an invitation to be the guest speaker.

4. Medical Manpower — Central Peel

At the conclusion of the year 1971 there were 102 physicians appointed to the staff of Peel Memorial Hospital of which 67 are in general practice and the remaining 35 are in the various specialties.

5. Future Planning for Hospital Facilities

As was reported on previous occasions, Peel Memorial Hospital is currently active in research and planning for requirements of hospital facilities up to the year 1980 in accordance with population demands. All such efforts are being co-ordinated through the hospitals' planning council for the counties of Halton and Peel and of course the Ontario Hospital Services Commission. So far as this area is concerned, there are two basic avenues of pursuit:

- (a) the expansion of Peel Memorial Hospital to its ultimate size and
- (b) the acquisition of a site for the second hospital.

On the latter, representatives of the Ontario Hospital Services Commission met in December with representatives from the Township of Chinguacousy and the Peel Memorial Hospital Board to view potential sites. Conclusive reports are not yet available. Planning for second phase expansion of this hospital is fairly

active in that a significant amount of compiling of population statistics and research into all local health facilities has been carried out and a number of meetings have been held.

RECONSTRUCTION OF THOMAS STREET, STREETSVILLE

We were instructed by Council to commence the engineering on Thomas Street in 1971 in order that consideration could be given to the commencement of construction in 1972.

The pre-engineering work is now complete and the following are the main points contained in the report:

1. Although the County at the present time has jurisdiction on this road only from Queen Street to a point approximately mid-way in the Fourth Concession, the desirable road system recommends the County extend its jurisdiction to the proposed Erin Mills Parkway.
2. Two alignments were studied, the first along existing Thomas Street for the entire length ("Scheme B") and the second following Thomas Street from Queen Street to 300 feet west of Hillside Drive, then shifting 275' to the south, paralleling Thomas Street and then shifting north again to meet Thomas Street immediately west of The Parkway ("Scheme A").

3. The estimated cost of Schemes "A" and "B" are \$380,150.00 and \$356,550.00 respectively.
4. "Scheme A" is recommended for the following reasons:
 - (a) A maximum grade of 6% can be achieved whereas the existing 8½% grade on Thomas Street cannot be improved because of the adjacent houses.
 - (b) Access could be limited to intersecting roadways allowing the road to function as an arterial roadway.
 - (c) The larger portion of the traffic would be diverted from Thomas Street allowing the existing road to function as a local residential street.
 - (d) The relocation of overhead and disruption of underground utilities is minimal.
 - (e) The acquisition of property will be less difficult as the land required is all owned by the Developer.

The report has been discussed with the Director of Works for Streetsville and he has indicated that Streetsville would be in favour of "Scheme A". Certain points were discussed of a design nature that would be incorporated at the design stage.

We recommend therefore, that the design proceed on the alignment as shown in "Scheme A" and negotiations commence with the Developer to the south of Thomas Street for those lands required for this new alignment.

Respectfully submitted,

"R. W. Knight"

R. W. Knight, P.Eng.,
County Engineer.

Rates of Pay

For each position there is a salary scale or an hourly rate.

Hourly rated employees transferred for the Corporation's convenience for a period of one full shift or more to a higher rated classification, shall be paid the higher rate for all time worked in that classification.

Casual employees in salaried positions are paid an hourly rate based on a salary one step above the minimum level of the salary applicable for the position.

Grievances

Employees should feel free to discuss a personal grievance with their Supervisor or Department Head.

The employees' dissatisfaction with the outcome of these discussions will be referred by the Department Head to the Administrator who will, if necessary, arrange for the matter to be submitted to the Chairmen's Committee of the Corporation for a decision.

Reporting Absence

The employee is personally responsible for advising his Supervisor or designate on each occasion necessitating an absence from duty. Failure to do so may result in forfeiture of pay, suspension or discharge from employment.

Sick Leave

Sick leave credits shall accumulate at the rate of 1½ days for each calendar month of employment.

There shall be no limit to the amount of sick leave credits an employee may accumulate.

NOTE: A full calendar month of employment shall be one where an employee is employed on all working days in the calendar month and is not absent from his duties other than on account of illness, accident, vacation, vacation leave, compassionate leave or leave of absence for up to a maximum of 5 working days.

When an employee is absent due to illness, the days absent shall be deducted from the accumulated sick leave credits. If the sick leave credit of any employee is exhausted during an illness, remuneration shall cease.

After remuneration ceases, sick leave credits of 1½ days per month shall continue for a period of 6 months, from which the employee's portion of welfare premiums shall be deducted. The balance of this credit and any occurring paid holidays are payable to the employee.

The Corporation reserves the right to ascertain the validity of claims made under this sick leave plan. Employees may be required to substantiate any absence for illness claim by the submission of the attending physician's certificate of illness.

Leave of absence from employment due to maternity shall not be covered by this sick leave plan.

Absence due to an accident or illness which is payable under The Workmen's Compensation Act shall not be deducted from accumulated sick leave credits, nor shall any sick leave pay be paid where an employee receives benefits from the Workmen's Compensation Board.

Welfare premiums shall be paid in full by the Corporation for employees on Workmen's Compensation benefits in excess of 6 weeks.

Sick leave credits due to an employee shall be payable only on retirement, or

- (a) when an employee with 20 years or more of full service terminates employment, or
- (b) in the event of death of an employee prior to retirement, to the next-of-kin or estate.

The cash surrender value in these circumstances shall be that amount of salary or wages equal to $\frac{1}{2}$ the number of sick leave credits accumulated. In any event, this cash surrender value shall not exceed $\frac{1}{2}$ year's earnings at the rate received by the employee at the time of qualifying for a cash surrender value.

Accumulated sick leave credits from previous employment with a public body shall be honoured in full by the Corporation provided that a certificate of such credit is submitted and that the interrupted service does not exceed 6 weeks.

Subsequent to December 31st of each year, employees will receive a memorandum from Payroll stating the number of days of accumulated sick leave credits.

Absence Without Leave

Any absence from work without the approval of the Department Head or his designate is considered absence without leave. In addition to forfeiture of pay, unauthorized absence may result in dismissal.

Health Services

Ontario Health Insurance Plan is compulsory. 78% of the cost of the Ontario Health Insurance Plan, at single or family rate, is paid by the Corporation.

Blue Cross semi-private coverage is available. If an employee desires Blue Cross semi-private coverage, 100% of this cost must be paid by the employee. The plan is open at time of hiring and thereafter on May 1st and October 1st of each year.

Blue Cross Extended Health Plan is available. If an employee desires this coverage, 100% of this cost must be paid by the employee. The plan is open at time of hiring and thereafter on January 1st of each year.

Group Life Insurance

Group Life Insurance is carried with the North American Life Assurance Company. Coverage for all employees (excluding

permanent part time) begins with the fourth month of employment, and is a condition of employment. 66 2/3% of the Group Life Insurance premium is paid by the Corporation. Effective March 1, 1972, 75% of the Group Life Insurance premium is paid by the Corporation.

The amounts of coverage are as follows:

Employees' Annual Earnings	Group Life Insurance

8,001 - 9,000.99	18,000
9,001 - and over	20,000

The premium on the above coverage is waived in the event of total disability after 6 months.

Coverage will reduce to \$1,000 upon the attainment of age 65.

On retirement, coverage of \$1,000 is maintained by the Corporation.

Pension Plans

The Corporation is a member of the Ontario Municipal Employees Retirement System. Pension entitlement for new participants begins with the seventh calendar month of employment. Transfer of existing memberships shall become effective immediately.

Deductions for Canada Pension Plan are made in accordance with the Regulations under the Act.

Contributions and benefits of the two pension plans are integrated. The Corporation contributes an amount equal to the employee's contribution.

Joining these plans is a condition of employment.

Vacations

The Corporation's vacation plan for employees provides for two weeks' vacation after one full year of service, three weeks' vacation after five years of service and four weeks' vacation after fifteen years of service. In determining eligibility for vacations, the date of May 31st of the current year is used. Leave of absence in excess of one month during the vacation year will result in a pro-rated loss of vacation credit.

Employees in salaried positions shall receive pay at their regular rate during these vacations. If service with the Corporation in a salaried position was less than one year as of May 31st, the employee shall be paid 1/12 of two weeks as vacation pay for each completed calendar month of continuous service. (Service starting prior to the 16th constitutes a calendar month for vacation purposes during the first year of employment.) This payment will be made during the month of June. Vacation leave without pay of one working day for each completed calendar month of continuous service, up to a maximum of ten working days, shall be granted.

Vacation pay for hourly rated positions shall be calculated at the following percentages, effective May 31, 1972:

Less than 1 year—2% of total earnings to May 31st.

One to five years—4% of total earnings from June 1st to May 31st.

Five to fifteen years—6% of total earnings from June 1st to May 31st.

Over fifteen years—8% of total earnings from June 1st to May 31st.

This payment will be made during the month of June. Vacation leave without pay of one working day for each completed calendar month of continuous service, up to a maximum of ten working days, shall be granted for service with the Corporation of less than one year. Vacation leave without pay is granted in accordance with the following schedule:

One year of continuous service—2 weeks.

Five years of continuous service—3 weeks.

Fifteen years of continuous service—4 weeks.

The selection of vacation dates will, where practical, be

approved on the basis of seniority in each department. Each department shall determine the number of employees who will be on vacation at one time.

Vacations shall not be cumulative from year to year, and employees with more than one year of service shall not draw pay in lieu of vacations, except under special circumstances which must be authorized by the Corporation.

Department Heads, Deputies and/or Assistants, so classified by by-law, shall be permitted to accumulate vacations from year to year to a maximum of two years' vacation credits.

When an employee terminates prior to the vacation period as defined, the following vacation pay schedules shall apply:

1. Less than one full year of service. Accumulated vacation pay as of May 31st, if not already taken, plus 2% of earnings from May 31st to date of termination.

In the event of the death of an employee's spouse, father, mother, brother, sister, child, mother- or father-in-law, the Corporation shall grant up to 3 days' compassionate leave with pay for the purpose of making arrangements for and attending the funeral. In the event of the death of a sister- or brother-in-law, or grandparent, the Corporation shall grant one day compassionate leave with pay for the purpose of attending the funeral.

Pay shall be at the employee's regular rate and an employee shall be paid only for that time which he would normally have worked.

Jury and Court Duties

If an employee is required to serve on jury duty, or subpoenaed as a witness, the Corporation will pay the employee his full wages provided he turns over to the Corporation the amount received as compensation, other than travelling allowance, and further provided the employee reports for work when not required at Court.

Hours of Work and Overtime

Hours of work are governed by each department.

Hourly rated employees are paid time-and-one-half for hours worked in excess of normal work hours.

THE CORPORATION OF THE COUNTY OF PEEL
SCHEDULE "A" TO BY-LAW NUMBER 2448

THIS AGREEMENT, made in duplicate this 16th day of March, 1972.

BETWEEN:

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO,
hereinafter called "the Licensor"

OF THE FIRST PART

— and —

COUNTY OF PEEL,
hereinafter called "the Licensee"

OF THE SECOND PART

WHEREAS the Licensee has applied to the Licensor for permission to attach wires and/or other equipment to poles of the Licensor from time to time.

NOW THEREFORE THIS INDENTURE WITNESSETH that in consideration of the covenants and agreements herein contained on the part of the Licensee to be observed and performed, the Licensor hereby permits the Licensee to attach such wires and/or other equipment of the Licensee to such poles of the Licensor as may be designated by Permit or Permits entered into from time to time by and between the parties in the form set out in Exhibit "A" attached hereto.

1. In consideration of the granting of such Permit or Permits the Licensee covenants and agrees with the Licensor as follows:

(i) to place, maintain, co-ordinate physically and electrically and operate its attachments in a manner satisfactory to the Licensor and so as not to interfere in any way with the lines, works or equipment of the Licensor;

(ii) subject to paragraph (i) to place, maintain and operate its attachments in accordance with the specifications, requirements and standard construction practices set forth in the Canadian Electrical Code — Part III CSA Standard C22.3 No. 1 (D) marked as Exhibit "B" attached hereto and forming part hereof and hereinafter referred to as the "Standard";

(iii) to rearrange, remove temporarily or transfer any of its attachments whenever notified by the Licensor so to do in order to facilitate the placement, rearrangement, maintenance or removal of any attachments of the Licensor on its poles and to perform such work at the Licensee's sole risk and expense within seven (7) days after being notified in writing by the Licensor so to do. If the Licensee should fail to comply with any such notice, the Licensor itself may perform the work directed thereby and all costs and expenses incurred thereby shall be paid by the Licensee to the Licensor upon demand;

(iv) not to alter any of its attachments or remove any guys required by the said Standard except with the prior written consent of the Licensor as hereinafter provided or except when notified by the Licensor so to do pursuant to paragraph (iii) immediately preceding, and not to place on any poles designated by such Permit or Permits any attachments in addition to the attachments covered by such Permit or Permits except with the prior written consent of the Licensor, but the Licensee may, with the verbal consent of the Licensor, add a single drop wire or service attachment on any such poles so designated in order to serve an adjacent subscriber of the Licensee, and maintain such attachment and replace any of them that become defective, provided that the Licensee shall notify the Licensor in writing of all additions, alterations and renewals consequent to such work of addition, maintenance or replacement within two (2) weeks after the completion of the work;

(v) to assume all risk of damage to or loss of its attachments howsoever caused, and to release the Licensor from all claims and demands accordingly;

(vi) to indemnify and save harmless the Licensor from all

claims and demands for or in respect to any loss, damage or injury (including loss of life) to property or persons arising out of or attributable to the exercise by the Licensee of the permission herein granted, to the extent that such loss, damage or injury is caused or contributed to by the fault or negligence of the Licensee, or is due to the non-observance or non-performance of any of the covenants or agreements herein contained to be observed or performed by the Licensee;

(vii) to pay the Licensor for the permission hereby granted an annual rental of TWO DOLLARS (\$2.00) per pole for each and every year or fraction thereof during which this Agreement shall remain in force and effect, in advance of the first day of January in each year, commencing on the first day of January, 1972. No rental shall be paid by the Licensee for the use of any of the poles of the Licensor where such use consists only in attaching guys and clearance or crossing attachments thereto.

2. AND it is mutually agreed between the Licensor and the Licensee as follows:

(a) This Agreement and all the terms and conditions herein contained shall apply to all poles so designated as if the terms and conditions hereof were set forth and embodied in each such Permit and this Agreement and all such Permits shall be read and construed as one document.

(b) If at any time the Licensor deems it necessary or is required to replace or change the location of any pole designated by such Permit or Permits carrying attachments of the Licensee, the Licensor shall notify the Licensee accordingly, whereupon the Licensee at the time specified in the notice and at its sole cost and expense shall remove its attachments from that pole and, except when the notice specifies to the contrary, the Licensee may, if the Licensee so desires, transfer its attachments to the pole in the new location or to the new pole, as the case may be, in which latter event this Agreement shall continue to apply to the attachments so transferred. The Licensor will endeavour to give the Licensee at least thirty (30) days' written notice of any such replacement or change in location of a pole, but in case of emergency the Licensor may give such shorter notice as the Licensor deems expedient and the notice may be given verbally. If the Licensee fails to comply with any such notice, the Licensor may

effect removal of the Licensee's attachments and, unless notified by the Licensee to the contrary, may also effect the transfer of the attachments as aforesaid, all at the risk and expense of the Licensee;

(c) The Licensor may in its absolute discretion appoint an inspector under whose supervision any work by the Licensee of placing, rearranging, maintaining or removing its attachment shall be carried out;

(d) The Licensee shall be responsible for obtaining such easements, rights-of-way, privileges or other interests in land (including public highways) as may be necessary for the placement, maintenance and operation of its attachments upon and along the poles designated by such Permit or Permits and if the Licensee fails to comply with the provisions of this paragraph it shall indemnify the Licensor from all claims or demands resulting from such failure;

(e) All work of pruning or removing trees or underbrush with respect to any sections of pole line to be or being jointly used by the parties hereto under the terms of this Agreement shall be performed by the Licensor and the cost of such shall be borne as follows:

(i) when the work is performed in order to permit the Licensee to place its attachments on the poles of the Licensor the total cost of the work shall be borne by the Licensee,

(ii) when the work is performed as a routine for the maintenance of service on a jointly used pole line, one third of the cost of the work shall be borne by the Licensee.

The Licensee shall pay its share of the cost within thirty (30) days of receipt of bills rendered therefor.

(f) This Agreement shall continue in force for a period of five (5) years commencing on the first day of January, 1972, and thereafter for further successive periods of five (5) years each, unless and until terminated by five (5) years' notice in writing from either the Licensor or the Licensee to the other, prior to the expiration of the original term and/or any renewal or extension thereof.

(g) Upon termination of this Agreement for any cause the Licensee shall forthwith remove its attachments from the poles of

the Licensor and in case of failure so to do the Licensor itself may effect such removal at the risk and cost of the Licensee.

(h) Neither this Agreement nor any permission granted hereunder shall be assigned or sublet by the Licensee without the written consent of the Licensor first being obtained, and the Licensor may, in its absolute discretion, arbitrarily withhold such consent.

(i) Subject to paragraph (h) immediately preceding, this Agreement shall extend to, be binding upon and enure to the benefit of the Licensor and the Licensee, and their heirs, executors, administrators, successors or assigns, respectively.

IN WITNESS WHEREOF the parties hereto have caused this Agreement to be executed on the day and year first above written.

APRIL REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Representatives on the Peel Memorial Hospital Board beg to report as follows:

1. The 49th annual meeting of the Peel Memorial Hospital Board was held March 16, 1972, in the senior lecture hall at Peel Memorial Hospital. The usual business of an annual meeting was conducted with the presentation of the audited financial report, report by the Board to the members of the Hospital Association and the election of five new directors to fill the five seats vacant each year. There were ten nominees for the five vacant seats. New directors elected for the three year term were Mr. R. Allison, Mr. P. VonBulow, Mr. J. Crust, Mr. J. McDermid, Mr. B. Stevenson.

The highlight of the evening was the guest speaker who was Dr. K. C. Charron, Deputy Minister of Health for the Province of Ontario. Dr. Charron gave a very interesting talk to the meeting on the developments in financing of hospital and health care reorganization of the Ministry of Health and the regionalization of health services.

As per the capital financial assistance agreement between the County of Peel and Peel Memorial Hospital, copies of the audited financial statement have been provided to the County through the Clerk-Administrator's office. It is interesting to note that the per diem cost per patient per day for 1971 was finalized at \$52.27, well within the budget for 1971 and one of the lowest per diem cost rates of any hospital in urban centres of Ontario, while

maintaining what we believe to be an extremely high standard of care.

2. The Medical Staff Officers for the year 1972 have been appointed by the Board of Directors and they are as follows:

Chief of Staff—Dr. D. Wilson.

Chief of Medicine—Dr. B. Thicke.

Chief of Obstetrics and Gynaecology—Dr. W. Whittaker.

Chief of Surgery—Dr. E. Kummel.

Chief of Anaesthesia—Dr. S. McDowell.

Director of Laboratories—Dr. G. M. Longfield.

Director of Radiology—Dr. W. Gedz.

These physicians are appointed by the Board of Directors to advise them on medical matters and to supervise the quality of medical care within the confines of Peel Memorial Hospital.

3. Since this hospital introduced charges for parking on its visitor parking lots, the mechanism employed was automatic coin operated gates. Time has proven that a mechanical apparatus does not always do a better job than the human and we are now converting to an attendant at the entrance to the visitors' parking lot during the busiest ten hours each day.

Received April 20, 1972.

H. M. ALLAN,
Reporting Member.

L. H. PARSONS,
Warden.

APRIL REPORT OF THE EDUCATION LIAISON COMMITTEE

To the Warden and Council of the County of Peel.

Your Education Liaison Committee begs to report as follows:

A meeting of this Committee was held April 13, 1972.

Present: McCallion.

Absent: Allan, Murray, Parsons, Williams.

Also present: From the Ministry of Education: Dr. E. E.

Stewart, Deputy Minister; J. Thomson. From the Peel County Board of Education: W. Kent, Chairman; E. S. Blair, Trustee; Norah Busby, Trustee; R. Lagerquist, Trustee; A. Cummins, Superintendent of Academic Affairs; H. J. A. Brown, Superintendent of Business Affairs. From the Dufferin-Peel County Roman Catholic Separate School Board: R. E. LeMay, Chairman; W. Metson, Trustee; J. Hugel, Superintendent of Separate Schools and Secretary.

1. The representatives from the Ministry of Education addressed the Committee and outlined the proposed amendments to The Secondary Schools and Boards of Education Act and The Separate Schools Act, with respect to the election of trustees on a ward basis. We recommend approval of the following resolution passed by your Committee:

"In view of the many difficulties involved in the introduction of a ward system for the Town of Mississauga, the Town of Streetsville and the Town of Port Credit;

Resolved that the provisions under which trustees from the three municipalities are now elected to the Peel County Board of Education continue to be in effect;

Similarly, the provisions under which trustees are elected to the Dufferin-Peel County Roman Catholic Separate School Board, will continue to be in effect."

In Committee of the Whole:

A motion to adopt Clause 1 was lost.

Moved by L. H. Parson:

Whereas concern has been expressed by electors in the County of Peel and by members of the Peel County Board of Education and the Dufferin-Peel County Roman Catholic Separate School Board, with respect to the manner in which Trustees are elected to their respective School Boards;

And whereas, the present system of election to School Boards in the County of Peel makes it prohibitive for many excellent potential candidates to offer themselves for election to School Boards, due to the cost of conducting an election campaign over a very large area

Therefore be it resolved that the Minister of Education be advised that the Council of the County of Peel requests that amendments be proposed by the Provincial Government to the appropriate Acts, to permit the division of areas of the County into Wards for the purpose of the election of School Board Trustees.

Carried.

2. The Clerk reported that not all replies from local municipalities have been received with respect to Clause 7 of the Regional Government Committee Report, as adopted by Council on December 16, 1971, regarding a proposal for school site acquisition in the County of Peel. We recommend that the Clerk be instructed to request prompt replies from the Town of Streetsville, the Village of Caledon East, the Township of Albion and the Township of Caledon. We further recommend that the Chairman be instructed to request the heads of all municipalities that have not submitted a decision, to forward their decision prior to May 31, 1972.

3. We recommend that minutes of the meeting held April 13, 1972, be confirmed.

Adopted as amended April 20, 1972.

HAZEL McCALLION,
Chairman.

L. H. PARSONS,
Warden.

PEEL COUNTY HEALTH UNIT BRAMPTON SUB-OFFICE

The establishment of a sub-office in Brampton for the purpose of stamping International Certificate of Small-Pox Vaccination and the issuing of septic tank permits, is impractical at this time for the following reasons:

- 1) Rental of office space.
Linking of phone to County Switchboard (Long Distance).
Light and Heat.
Maintenance.
(Unless arrangements could be made to go back into Peel Memorial Hospital).
- 2) Staff requirements. One full-time Clerk-Typist II @ \$5,063.55 per annum with the office closing at lunch hour. Work load not heavy enough to keep her fully occupied.
- 3) The issuing of a Septic Tank permit is contingent on many factors, i.e. the official plan zoning lot suitability, subduration approval, etc. This process is involved and requires the services of Inspector, Senior Inspector, and finally the Chief Public Health Inspector.
- 4) A system to enable physicians and citizens to have Small-Pox Vaccination books stamped by mail already implemented.
- 5) A second office would encourage a northern base for Health Unit personnel who are still adjusting to centralization (completed in November, 1971).
- 6) Little control by supervisory staff would be possible. The training of new staff would also be problematic.

MAY REPORT OF THE CHILDREN'S AID BOARD

(as submitted by the Children's Aid Board)

strong, Mrs. K. Bellian, B. Deacon, G. C. Gardhouse, S. Rutherford, Mrs. F. Tkachuk, D. Westlake.

MAY REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Representatives on the Peel Memorial Hospital Board beg to report as follows:

1. NATIONAL HOSPITAL DAY. May 12 each year is National Hospital Day in Canada which commemorates the birth of Florence

Nightingale and perhaps the advent of the modern hospital philosophy throughout the world. Peel Memorial Hospital is drawing the attention of the public to this day through various media and through projects carried out within the hospital. It is that day of the year when those of us in the hospital industry try to reflect upon practical efforts of the thousands of persons carrying out the hospital system.

2. **FIRST QUARTER 1972 FINANCIAL REPORTS.** Financial statements for the first three months were presented to the Board of Governors at their April meeting. The reports showed actual expenditures of \$2,125,057.00 as compared to a budget of \$2,163,779.00. The per diem cost per patient per day was \$53.21. Costs are generally slightly less in the first part of the year compared to the later part, mostly due to salary increases that are budgeted for in the later part of the year. Due to the restructuring of the Ministry of Health in the Province of Ontario, budgets for Peel Memorial Hospital for 1972 have not yet been finalized. Indications would lead us to believe that no great difficulty should be experienced.

3. **TUITION FEES FOR NURSING EDUCATION.** The Minister of Health for the Province of Ontario has advised all hospitals that \$250.00 annual tuition fee will apply to students in the courses leading to a registered professional nurse. At the same time, an annual tuition fee of \$150.00 will be applied to those in the Registered Nursing Assistant program. This undoubtedly will have an effect on the potential applicants to be enrolled in these two streams. We have no indication as to what effect this will have on the ultimate educational programs.

4. **GRADUATION DAY.** The Registered Nursing Assistant School at Peel Memorial Hospital will hold graduation day on Saturday, June 3, 1972. This will finalize the course of training for the thirty ladies who enrolled in this class during mid 1971. This program has been active at Peel Memorial Hospital for the last ten years during which time we have graduated some 250 students.

5. **NURSING WORKSHOPS.** Each year the in-service Education Department within the hospital puts on a program for the registered professional nurse, which hopefully provides updating of techniques, updating of legislation, refreshment in the ideals of current nursing, etc. The program for this year was carried out

on April 6 and 7 at Peel Memorial Hospital and involved approximately 300 nursing personnel in this two-day workshop entitled "The Legal Aspects of Nursing".

6. **HEALTH FILMS.** The Board of Directors conducted an evening for previewing three films which hopefully would lead to better community understanding of family planning and the problem of venereal disease control. The hospital invited representatives from the educational system, the religious institutions, the public health, the medical profession, hospital staff and others to preview these films with the idea of passing on their worthiness as something the hospital should purchase and have available for viewing by appropriate organizations within the community. As a result, the response was unanimous that two of these three films would be an advantage to have in the community, and accordingly, the hospital has purchased two films, one entitled "Methods of Family Planning" and the other "See Your Doctor" which is a V.D. film. These films are available free of charge to appropriate organizations.

7. **IN-DEPTH HOSPITAL FACILITIES STUDY.** The Board of Directors have contracted with the firm, Agnew Peckham & Associates, who are hospital consultants in Ontario, to carry out a rather brief but in-depth analysis of two areas of planning for future hospital facilities. The two topics are cited as: (a) a determination of what out-patient facilities will be required to meet the population levels expected from the year 1976 and (b) in-depth analysis of what major medical specialties will be required to service the same population level and what effect they will have on the requirement of hospital facilities. Hopefully, this will conclude our total endeavour to plan adequately the final phase of construction at Peel Memorial Hospital to service the hospital needs up until the second area hospital is commenced, sometime around the year 1980.

8. **HOME CARE PROGRAM.** The month of April concludes the most active month for Home Care referrals from Peel Memorial Hospital. Twenty-one cases were referred to the Home Care Program, an increase of about five over previous months.

9. **HOSPITAL OPPORTUNITY SALE.** The Hospital Auxiliary (mostly ladies) are conducting an Opportunity Sale on September 22 and 23, 1972. They are looking for all kinds of donated goods or services that may be put up for sale at this annual project the

net proceeds of which are channeled back to the hospital to provide the funds for the many contributions by the Hospital Auxiliary throughout the year.

Received May 18, 1972.

5. We are in receipt of a letter from the Minister of Health regarding organization of Health Councils and the future status of Boards of Health and requesting comments. We recommend approval of the following resolution passed by your Board:

And whereas, the Provincial Government's apparent move to centralization of services is further eroding the autonomy of local municipalities;

And whereas, the municipality is being relegated to the role of collector of taxes and payer of bills with no control of budgets of appointed bodies;

Therefore be it resolved that The Peel County Board of Health rejects the Minister of Health's proposal to centralize the control of health services for the people of Ontario and further recommends to the County of Peel that if the Minister persists in his proposals that the County refuses to levy taxes for health services on the people of the County of Peel."

3. The Minister of Health has charged the College of Physicians & Surgeons with new responsibilities. In brief, these new responsibilities request the College of Physicians & Surgeons to set up teams of medical personnel to visit hospitals throughout the Province for the purpose of reviewing utilization of beds, particularly as they relate to the length of stay of patients in hospitals. These teams will be supplied with statistical data from the Provincial source on individual hospital's performance in this area as a guide. All doctors on staff at Peel Memorial were sent a copy of the letter dated April 21, 1972 in addition to a letter dated April 20, 1972 from the College stating what the Minister of Health hopes to accomplish through this action. The regulations under the Public Hospitals Act have been amended to give this effect. Section 48, Subsection 4B (II) requires all members of the Medical Staff and Hospital Staff to produce records and answer enquiries concerning admission, treatment, care, conduct and discharge of patient.

4. The College of Physicians & Surgeons will set up a record of all doctors practicing in Ontario, together with their hospital affiliation and privileges accorded. An Appeal Board is to be established where a doctor may appeal any decision regarding his application for appointment to hospital staff, privileges accorded or removed. The Grange Committee Report does not disagree with the idea of relating the number of specialists in a hospital to the size of population served, or declining an application on this basis if it is reasonably established.

5. The Registered Nursing Assistant School of Peel Memorial Hospital conducted graduation exercises for students who graduated from this course on June 3, 1972. About 200 persons attended this ceremony, witnessing the presentation of diplomas, nursing pins, and other formalities that complement such an occasion.

6. The management of Peel Memorial Hospital have developed an effective management educational program in conjunction with Sheridan College, Brampton campus. This is an on-the-site development course for hospital management staff, of which there are approximately 70. 69 persons enrolled in the six-week program which finished June 7, 1972. We are happy to report that this program has been very worthwhile and well received by our staff. It indicates to us the role that the community college can play and no doubt will in the years to come.

11. We recommend approval of the following resolution passed by your Committee:

"WHEREAS many municipalities in the County of Peel are requesting additional information on which to base their decision on municipal re-organization within the County of Peel;

THEREFORE BE IT RESOLVED THAT during the months of July and August member municipalities of the County of Peel be requested to give extensive consideration to all briefs, reports, and financial analyses developed to this date.

AND FURTHER THAT the next meeting of the Municipal Re-organization Committee be held in the second week of September, 1972."

That the Province of Ontario be requested to give consideration to making available to the County of Peel a sum of money equal to the sum provided the Region of York for the purpose of developing an Official Plan for the existing area of the County of Peel, it being understood that the monies contributed by the Province would be used to engage the necessary professional staff and provide accommodation for a Planning Department to do the necessary technical work to develop the above mentioned Official Plan, but that this planning agency would not be a decision making body until such time as municipal re-organization takes place.

2. That the Province of Ontario be requested to make available to the County of Peel a sum of money equal to the sum being provided on a per capita basis for the provision of police services, providing the present study being done by the

3. That an application be made to the Ontario Municipal Board for approval to issue debentures in an amount not to exceed \$1,500,000.00 for the purpose of construction of an administrative complex to serve the needs of the County of Peel."

In Committee of the Whole:

A motion to defer paragraph 2 of the resolution was lost.

13. We recommend approval of the following resolution, as amended, passed by your Committee:

"Resolved that the Municipal Re-organization Committee give consideration to including in their brief responsibilities which the province will decentralize to the Regional Municipality on the basis of a phased program of decentralization, and request that this become a part of the legislation."

COUNTY ENGINEER'S REPORT CONTINUATION OF COUNTY ROAD 9 OVER THE CONSERVATION DAM NORTH OF BOLTON

This Department was authorized to negotiate with the Consulting Engineers for the Metropolitan Toronto and Region Conservation Authority, as to the possibility of constructing the above dam in such a way that an east-west road could be constructed in conjunction with the dam.

We met with the Authority and the Engineers, and asked them for a preliminary design and an estimate of the increased cost of the dam to accommodate a road. The Authority has now forwarded a copy of the Engineers' Report, which shows the proposed alignment for the road, a typical section over the dam and estimated costs.

The alignment of the road has been based on a design speed of 50 m.p.h., rather than the 60 m.p.h., which would be used for most County Roads. This means that the operating speed would probably be 40 m.p.h., rather than 50 m.p.h.

The additional cost of building the dam to accommodate a road over the normal cost is estimated at \$450,000.00. This increase is caused by two factors. Firstly, there was considerable conflict between the road alignment desirable from a design standpoint and the dam alignment desirable from economics and aesthetics. The recommended alignment is a compromise. Secondly, the dam had to be widened to accommodate the road. The cross section of the road calls for 22 feet of pavement and 8 foot shoulders and guide rail.

We contacted the Authority to see what saving might be expected if the shoulders were reduced to 3 feet. Although no accurate estimate was available, it was thought that it might be approximately \$100,000.00. However, such narrow shoulders over a large fill create both a physical and a mental hazard, and guide rails so close to a road present a serious snow-clearing problem.

Recommendations:

1. Although there is no real need for a road in this location at the present time, provisions should be made for the construction at a later date.

2. As this road at the present time would not meet the

criteria as a County Road, we are unable to make a recommendation as to the additional cost responsibility.

3. The cross section of the dam should be wide enough to accommodate 22 feet of pavement and 8 foot shoulders.

4. As the length of road will be approximately 4,500 feet and the dam is approximately 1,675 feet long, sufficient engineering should be done to determine the right-of-way required, and this right-of-way should be protected for the balance of the road.

**COUNTY ENGINEER'S REPORT
STATUS OF THE PROPOSED CONSTRUCTION
OF THOMAS STREET**

The following is the present status of the above project:—

- In February Council approved a new alignment of Thomas Street, shown as "Scheme A" in the Design Report.
- A letter was received from the Clerk-Administrator of Streetsville to the effect that Streetsville was in favour of "Scheme A".
- A letter has been received from the Town Engineer of Mississauga enclosing a copy of his report prepared for Mississauga Council and approved by them on June 26. This report points out that the possibility of Thomas Street ever being constructed as a major arterial is minimal and recommending that Thomas Street be improved on the existing alignment and an entirely new east-west facility be developed in conjunction with land use proposals in the vicinity.
- The report from Mississauga has been sent to the Town of Streetsville for study and comments and has also been forwarded to Don Mills Developments.
- We have also had indications that the cost of acquiring the necessary land for "Scheme A" might be very much higher than originally estimated and as 5 to 6 acres are involved, the Committee may wish to reconsider the choice of "Scheme A" or "Scheme B".
- In a report to the Clerk-Administrator for Streetsville, the Director of Works had suggested a pavement width of 44 feet rather than the proposed 32 feet. As the A.A.D.T. on this road is only 3000+ vehicles per day at the present time, we feel that the 32 feet which provides for two lanes and parking on one side is adequate.

In view of the foregoing and because of the present condition of Thomas Street, particularly at the eastern section, we would recommend that design plans be started immediately and if possible construction be scheduled this fall for that portion from the tracks to Vista Drive and further consideration be given by all parties concerned whether to proceed westerly on the existing alignment or to proceed with the diversion as shown.

Reports

AUGUST REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Representatives on the Peel Memorial Hospital Board beg to report as follows:

1. The summer months bring a lessening of patient activity to most active treatment community hospitals due mostly to vacation periods, resulting in less desirable time for the elective type of cases to be admitted to hospital. Between the period of July 15 and August 15, the surgical load for in-patients will be reduced by some 30%. Through various means of calculations, we are able to reasonably predict the hospital patient load two and three months ahead of time. This can only be done with a structured internal operating policy in conjunction with the medical profession, and of course the whole objective is to program the application of resources to meet the anticipated workload.

2. At the June Board meeting announcement was made of Mr. H. K. Krafft's retirement (to be effective December 31, 1972). Mr. Krafft has been the Administrator of Peel Memorial Hospital since the Fall of 1956 and it goes without saying that his guidance has been one of the very major forces in the planning, building and re-building of this hospital over the last number of years to a point where it is a major institution, having full Accreditation and representing the best in hospital organization and management known in this time era. County Council will have more information on this subject in the next few months.

3. Hospitals in Ontario, particularly in Brampton, experienced a difficult period with inadequate quantity of blood supplies. The Provincial Red Cross system in Ontario is recognized as being one of the best methods for provision of this commodity and those

of us involved in its use of application should continually give public support to the Blood Donor Clinics.

4. It has been some time since Peel Memorial Hospital has had serious difficulty in obtaining the necessary professional and technical staff required. However, during the last few weeks, and expected for the balance of the summer, there has been a measurable problem in acquiring laboratory technicians, x-ray technicians, physio and occupational therapists, and professional nurses. The difficulty is compounded by the summer vacation periods when a number of part time or relief personnel in these ranks choose not to be available for work.

5. Peel Memorial Hospital continues to assist wherever it can in the planning and development for adequate hospital facilities for the 1970 decade, which of course involves the selection and proposal for a second hospital. This assistance is provided through the Halton & Peel Hospitals' Council, the Township of Chinguacousy offices and their representative to the Peel Memorial Hospital Board, as well as the Ministry of Health of the Province of Ontario.

Received August 17, 1972.

H. M. ALLAN,
Reporting Member.

L. H. PARSONS,
Warden.

AUGUST REPORT OF THE GENERAL 1 COMMITTEE

To the Warden and Council of the County of Peel.

Your General 1 Committee begs to report as follows:

The regular monthly meeting of this Committee was held August 11, 1972.

Present: Gregory, Horwood, Parsons, Robinson, Wallace, Whitehead, Williams.

Absent: Black, Saddington, Searle, Weylie, Wilson.

1. Agriculture

- (a) We are in receipt of a letter from the Township of Albion enclosing a copy of a letter from Cedar Mains Farms who point out the importance of the work of an efficient dogcatcher and the necessity of that office being effec-

tively equipped to minimize the losses that have become so severe in the raising of high quality animals in the Township.

- (b) We are in receipt of a letter from the Ontario Beekeepers' Association in connection with the mowing and widespread use of herbicides on roadsides to destroy many plants that are of some benefit to honeybees and beekeepers, and requesting some action to increase the amount of bee pasture.

2. Education

- (a) The distributions of members of the Peel County Board of Education were considered. We recommend approval of the following resolutions passed by your Committee:

- 1) "Whereas, under The Secondary Schools and Boards of Education Act of the Province of Ontario, it is the duty of County Council to apportion the number of representatives from each municipality within the County or groups of combined municipalities on the County Board of Education;

And whereas, in most cases in the County of Peel, with the exception of the rural northern municipalities, the fairest way to make the above-mentioned determination is to use as a basis for calculation assessment equalized by the Provincial factors;

Therefore, be it resolved that representatives on the Peel County Board of Education be allocated on the following basis:

Brampton	2
Mississauga	11
Port Credit and Streetsville	1
Bolton, Albion and Toronto Gore	1
Caledon East and Caledon	1
Chinguacousy	2
	—
Total	18"

In Committee of the Whole:

Amendment to Clause 2 (a) 1).

Moved by A. G. Clarkson, Seconded by J. C. Saddington;

Resolved that the recommendation of Clause 2 (a) 1) be amended as follows:

Brampton	2
Mississauga	10
Port Credit	1
Streetsville	1
Bolton, Albion and Toronto Gore	1
Caledon East and Caledon	1
Chinguacousy	2
	—
Total	18

Amendment to the Amendment.

Moved by L. H. Parsons;

Resolved that the apportionment of members to the Peel County Board of Education be amended in the following manner:

That twelve members be elected from the three municipalities of the Towns of Mississauga, Port Credit and Streetsville provided that the Councils of the three municipalities signify by resolution to the County Clerk by Tuesday, August 22, 1972, that all three municipalities concur with a ward system with the Towns of Port Credit and Streetsville as separate wards with one representative each, and that the Clerks and Solicitors of the three municipalities concur that such division is legally possible;

And further, failing such agreement and legal opinion being obtained, a special meeting of County Council be held August 29, 1972, to reconsider the issue.

Recorded Vote — Requested by L. H. Parsons.

In favour: Clarkson 1, Grice 1, Searle 1, Gregory 1, McCallion 1, Leavers 1, Saddington 1, McMullin 1, Wil-

son 1, Proctor 1, Robinson 1, Whitehead 1, Allan 1, Black 1, Martin 1, Miller 1, Williams 1, Parsons 1. Total 18.

Opposed: Chamney 1, Archdekin 1, Horwood 1.
Total 3.

Absent: Weylie 1, Wallace 1. Total 2.

The Amendment to the Amendment was carried.

- 2) "Resolved that County Council determine that for the purpose of the election of two members to be elected by separate school supporters to the Peel County Board of Education, one shall be elected from the combined Towns of Port Credit, Mississauga and Streetsville and one member from the balance of the municipalities in the County."

3. Emergency Measures

- (a) Activity Reports for the months of June and July, 1972, were received from the Co-ordinator, Emergency Measures Organization.

We recommend that the extension be approved and that the necessary by-law be presented to Council.

4. Legislation

- (a) We are in receipt of a letter from the Treasurer of Ontario acknowledging receipt of the County resolution requesting the Treasurer of Ontario to consider a three year term for all Boards and Councils, and stating that while he respects the views and sincerity of those who support the longer term, he is convinced that the uniform two year term of office and the uniform date for elections and companion provision of Bill 77 will serve to bring greater public focus on municipal elections and stimulate interest in local government operation and affairs.
- (b) We are in receipt of a letter from the Toronto Building & Construction Trades Council requesting support of the Province of Ontario proposal to take over the inspection

under The Construction Safety Act.

- (c) We are in receipt of a resolution from the Erie Economic Council requesting the Government of Ontario to continue to pay the annual grant of \$34,000.00 to each of the ten Economic Development Councils, provided that at least \$10,000.00 is raised locally by each of the ten Councils. We recommend that consideration of the resolution be deferred until a decision is made by the Provincial Government.
- (d) We are in receipt of a letter from the Ontario Legislative Assembly Select Committee on Land Drainage outlining the terms of reference of the Committee and stating that they will hold public hearings, and further requesting County Council to make certain that all local municipalities in the County are aware of the work of the Committee. We recommend that this information be referred to the local municipalities within the County.
- (e) We are in receipt of a letter from The Solandt Commission enclosing a Notice of Public Hearings into the transmission of Hydro power from Nanticoke to Pickering. The Clerk was instructed to request the Commission to forward a copy of the report when it is completed.

We recommend that this resolution be endorsed.

- (g) We are in receipt of a resolution from the County of Wentworth urging the Minister of Colleges and Univer-

sities to make available to municipalities specific Provincial grants for the construction and renovation of public libraries. We recommend that this resolution be endorsed.

- (h) We are in receipt of a resolution from the Townships of Anson, Hindon & Minden requesting the Province of Ontario to re-adapt the Unconditional Per Capita Grant Program to include seasonal residents in recognized cottage areas on a fair and equitable basis.
- (i) We are in receipt of a letter from the Peel Family Services requesting County Council to appoint two additional representatives to their Board of Directors. We recommend that S. H. Chamney and J. R. Whitehead be appointed.

In Committee of the Whole:

Amendment to Clause 4 (i).

On motion, S. H. Chamney was replaced by E. H. Wilson.

- (j) We are in receipt of the Association of Counties and Regions of Ontario 1972 Convention Newsletter, 13th Annual Convention Tentative Program, and request to appoint five voting delegates to the Annual Convention. SEPTEMBER REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Representatives on the Peel Memorial Hospital Board beg to report as follows:

1. Hospital Management is in the process of preparing its 1973 Operating Budget and it is interesting to note some of the operational statistics, that are recorded and provide the basic skeleton for designing the predicated costs for the upcoming year. Budgets are to be completed by October 31 for submission to the Ministry of Health, and each year we expect a reply and concurrence on an agreed fiscal policy in December or January. Because of the alterations in provincial government strategy regarding the financing of health care, there have been significant alterations to this timing pattern during the past two years.

2. Statistics

3. Mr. Howard Krafft plans to retire at the end of December, 1972 having completed in excess of sixteen years' service as the chief executive officer of Peel Memorial Hospital. Mr. Krafft's contribution during those years is without equal and has assisted many boards of governors in their deliberations about the provision of effective, sound hospital care for this community. An official retirement event will take place on November 17, 1972,

at the Skyline Hotel, invitations have already been mailed out including one to all members of the County Council and senior county staff.

4. The Minister of Health has released information about the plans for guiding the health care facilities in Ontario. The important matters being stressed are the integration of a total health care planning and co-ordinating facility, which appears, will include the formation of a number of district health councils throughout the province, which will have co-ordinating responsibilities in the area so served. Halton & Peel now have an existing hospital council made up of representatives from the six hospitals in these two counties with the Medical Officers of Health of each also participating in the meetings. We have mentioned in previous reports to County Council this might be the nucleus for the new health council in this area, and indications still lead us to believe this to be so. It is seen as decentralization of control from Queen's Park to certain geographic areas throughout the province, plus the integration of all health disciplines.

5. Meetings and plans continue to be held with respect to the final phase of construction at Peel Memorial Hospital. We are now on step four of a fourteen step program that will see the culmination of this project. Step four involves analysis and in-depth review of facilities that will be required to meet the population demands for the next number of years until the second hospital in the area is developed. Specific attention is being paid to requirements of out-patient and emergency facilities and the impact of increased sophistication and specialization in the medical profession and what effect it will have on hospital facilities in Central Peel.

6. The annual rummage sale of the Hospital Auxiliary is being held on Friday, September 22, 1972, at 7:00 p.m., at the Brampton Curling Club, and continuing through Saturday, September 23. All funds donated are used for hospital purposes.

POSITION PAPER ON MUNICIPAL RE-ORGANIZATION

Presented to the Municipal Re-organization Committee of Peel County Council on August 29, 1972, by L. H. Parsons, Warden, County of Peel.

PREAMBLE

On July 20, 1965, the then Minister of Municipal Affairs, The Honourable J. W. Spooner, appointed Thomas J. Plunkett as a Special Commissioner to inquire and report on the local government structure of all municipalities in the Counties of Peel and Halton. Commissioner Plunkett's report on Peel-Halton Local Government Review was presented to the Minister of Municipal Affairs on September 16, 1966. In Commissioner Plunkett's report are recommendations for the restructuring of local government on the basis of establishing one Urban Community and one Rural Community.

While this report was met with some enthusiasm, the consensus of opinion would seem to have been one of rejection of the report as being unacceptable by both the Elected Officials in the two Counties and also by the Government of Ontario.

In January, 1969, the then Minister of Municipal Affairs, The Honourable W. Darcy McKeough, presented a tentative proposal for the restructuring of Local Government in the Counties of Peel and Halton which provided for a two tier system of Regional Government for the combined two Counties.

Mr. McKeough's proposal was considered by both County Councils and also by most local municipalities in the two Counties, and I believe it safe to say that the proposals contained therein were rejected mainly due to the concern of the vastness of the proposed region and the danger of it being too large to govern as a local government without being "remote from the electorate".

Through the years 1965 to 1972 lengthy study, discussion and debate have taken place on all matters which were, in the wisdom of Peel County Council, important in the consideration of the restructuring of Local Municipal Government in Peel County.

At Peel County Council's inaugural meeting held on January 11, 1972, I proposed to Council that earnest discussions commence as quickly as possible to attempt to arrive at a consensus as to what form of re-organization County Council believes to be in the best interests of the citizens of Peel County.

Since January, 1972, the Municipal Re-organization Committee and County Council have put forth a great deal of effort to attempt to complete deliberations so that the Province may be made aware of the desires of the Senior Elected Officials in the County and take these desires into consideration when preparing any new proposals that may be coming forward.

The following is an excerpt from a speech delivered by The Honourable W. Darcy McKeough to the convention of the Association of Municipalities of Ontario at Ottawa in June, 1972:

"By the fall of this year the Provincial Government will make proposals for the municipalities immediately east and west of Metro Toronto within the Toronto-Centred Region. This will include the municipalities in Ontario and Northumberland and Durham to the east and those of Peel, Halton, Wentworth and Hamilton to the west. The Government will continue to receive proposals from interested local parties or from those who may have changed earlier views. It is the Government's intention to make proposals for all of the aforementioned areas this fall. A period for local response to these proposals will follow and subsequent government proposals for introduction into the Legislature could be prepared and announced as early as January, 1973."

The invitation by the Minister to make the Government aware of our desires may be one of the last opportunities we have to

play a part in the restructuring of our County, and it is with this in mind that I present this document to you for your earnest consideration.

The Council of the County of Peel is on record as being unanimously in favour of a restructured upper tier local government covering the geographical area of Peel County only, with the possible addition of some lands presently in Oakville being included in Peel County and it is with this premise that this position paper is being put forward.

1972 TIMETABLE FOR CONSIDERATION OF MUNICIPAL RE-ORGANIZATION

The following is an excerpt from the February Minutes of County Council held February 23, 1972.

Item 2 of the Municipal Re-organization Committee Report, as adopted, read as follows:

"Whereas it is the express desire of the majority of the Heads of the municipalities of the County of Peel to pursue the re-organization of local government in the County;

And whereas it is desirable that the timetable for consideration of matters pertaining to municipal re-organization be considered;

Therefore, be it resolved that the following timetable be recommended to Council as being the aim of the Municipal Re-organization Committee:

- 1) That during the month of February, recommendations be made by the Administrator and Clerk-Treasurer to the Municipal Re-organization Committee on the functions that should be considered as desirable at the upper tier level.
- 2) That during the month of March, examination be given to the estimated cost of the provision of the desirable services in a re-organized government.
- 3) That during the month of April, consideration be given to the number of municipalities and the boundaries of same which would constitute the new re-organized municipal government in the County of Peel.

- 4) That during the month of May, consideration be given to the establishment of a formula for representation in a re-organized government.

In Committee of the Whole:

Clause 2 2) was amended to read 'That during the month of March, examination be given to the estimated cost of the provision of the desirable services in a re-organized government, and that this Committee be authorized to engage outside assistance, if required.' "

In adopting this timetable, Council agreed to diligently pursue the task of acquiring all possible information that would assist in making a determination as to the structure of Local Government in Peel County.

FUNCTIONS OF THE UPPER TIER LEVEL OF GOVERNMENT

"A report by the Administrator and Clerk-Treasurer, as instructed in Clause 1 of the above resolution, was considered and amended. We recommend that the following functions be the responsibility of the upper tier level of government:

- 1) Regional Planning.
 - 2) Capital Financing for both Local and Regional Purposes.
 - *3) Regional Road System.
 - 4) Unified Police as per present Terms of Reference.
 - 5) Social Services (Administration of Homes for the Aged, Public Health and Community Services).
 - 6) Garbage Disposal (at wholesale level).
 - 7) Major Water, Sewage and Drainage Works (at wholesale level). Present O.W.R.C. Scheme transferred to Region.
 - 8) Regional Parks.
 - 9) Other services presently a County responsibility. i.e. Health, Homes for the Aged, Child Welfare, E.M.O., Construction Safety, etc.
- * Present County Road System to continue under approved Needs Study.

We further recommend that when legislation is drafted for Regional Government, permissive legislation be requested to allow unification of fire services within consenting municipalities."

The above recommendations of the Municipal Re-organization Committee were adopted by County Council on March 16, 1972.

INTERNAL BOUNDARIES

Prior to the March meeting of County Council, extensive discussion was held regarding possible internal boundaries for a restructured local government at the upper tier level.

Ten maps were considered by the Municipal Re-organization Committee on March 10, 1972. Each of the ten maps showed a proposed method of dividing the County into municipalities for the purpose of forming a new upper tier level of local government.

The following is an excerpt from Council's minutes of the March meeting of the Council regarding the action taken by Council on the maps which were considered:

"7. Ten maps showing proposed internal boundaries for a new re-organized Municipal Government in the County of Peel were considered. We recommend approval of the following resolutions passed by your Committee:

Resolved that consultants be requested to give consideration to Maps "B", "C" and "H", having regard to the desired Second Tier Services as previously approved by this Committee, with the following terms of reference:

- a) Financial,
- b) Population.

Resolved that Map "F" be included in the study.

Resolved that the four Boundary Maps as selected today for further consideration be distributed to the municipalities prior to the next session of Council.

In Committee of the Whole:

Amendment to Clause 7:

Moved by G. S. Proctor;

Resolved that in view of the complexities in studying

the proposed County Re-organization maps with overlapping boundaries and the vast support given to Map "C", Clause 7 of the Municipal Re-organization Committee Report, dated March 16, 1972, be amended to read that priority be given to the study of Map "C";

And further, that the other proposed maps be set aside for the time being.

Amendment to the Amendment:

Moved by R. C. Williams, Seconded by T. P. Miller;
Resolved that it be understood that Map "C" is to be a base study and if this Council is not satisfied with the results, the remaining plans will be studied.

Recorded Vote — Requested by J. I. McMullin."

"The Amendment to the Amendment was carried.

The Amendment was carried as amended."

Since March, each municipality has given consideration to Map "C" and their responses will be included in any submission made to the Province so that each local Municipality's point of view will be known to the Government.

REPRESENTATION

As had been agreed to in the Timetable for the Study of Municipal Re-organization, the Committee gave consideration to the possible number of members that would make up the Council and the following was agreed upon as a basis for consideration by groups of local Councils constituted under Plan "C".

Southern Municipality — Mayor plus 9 Councillors,

Central Municipality — Mayor plus 5 Councillors,

Northern Municipality — Mayor plus 4 Councillors,

Plus the Chairman.

Some responses have been received and are recorded here-under. However, at the present time no firm consensus has been reached and it is suggested that a decision on this aspect of Municipal Re-organization be deferred pending decisions by the Province on the final geographical make-up of the region, it being understood however that Council has agreed that each existing

municipality should have at least one representative on the new Council and that no one Municipality will have more than 49% of the representation on the new Council.

It has also been agreed to by County Council that the Province be requested to include in any new act respecting re-organization of Peel County a provision for the establishment of Citizen Advisory Committees at the option of the local municipalities.

FINANCIAL REPORT BASED ON MAP "C" AND POPULATION PROJECTIONS

The following is an excerpt from the adopted minutes of County Council for the month of April 1972:

"The Terms of Reference for the County Auditor to complete the Financial Report on Map "C" were considered. We recommend approval of the following resolution passed by your Committee:

Resolved that financial consideration be studied on the following basis:

- (1) What would the mill rate have been in the amalgamated municipalities as proposed in Map "C" based on 1971 Actual Expenditures if available, and/or 1970 figures if 1971 figures not available;
- (2) That a statement of Assets and Liabilities on items to become regional of each of the ten municipalities in Map "C" be presented to the Committee;
- (3) That a statement showing the proposed cost of Regional Government based on services previously agreed to, and taking into consideration the increased grants which have been made available to other regional units in the Province;
- (4) That the Financial Consultants be given authority to make requests of local municipalities for any other information required;
- (5) That all the above information be presented to the Committee by April 12, 1972.
- (6) And that the Financial Consultants be requested to make assumptions based on the latest information available.

The Terms of Reference for the Consultants to complete a Population Report on Map "C" were considered. It was agreed that the study be undertaken based on the present population and the projected population, as allocated in the Status Report on the Toronto-Centred Region, and be completed by April 12, 1972."

Based on the above terms of reference reports were obtained from the County Auditor copies of which are appended hereto.

Also appended hereto are excerpts of Murray V. Jones Report dealing with population allocations for the County of Peel as envisaged in the Toronto-Centred Region Status report.

CONCLUSION

Should the Council of the County of Peel wish the Government of Ontario to give consideration to County Council's wishes in regard to the municipal restructuring of Peel County, we must make our position known immediately. For some years now, experts including Commissioner Plunkett, the Minister of Municipal Affairs, The Honourable Darcy McKeough and his advisers, and many local politicians, have said that there must be at least some form of amalgamation of the Counties of Halton and Peel in order to establish a workable upper tier local government in this area.

It is difficult to present meaningful arguments against the opinions of the above-mentioned individuals but it would also be equally difficult to present arguments should the Province be shown that Peel County Council in the majority favours restructuring on the basis of Peel County only, with the addition of that small part of Oakville mentioned in the Boundary Study Section of this position paper.

It is therefore my belief that it is imperative that Peel County Council adopt what it believes is a workable scheme for restructuring and forward it to the Province.

In this regard I believe that the outcome of the studies that have taken place this year clearly conclude that the citizens of the County would be best served by the Province implementing legislation to establish regional government for the above-mentioned area. In implementing this legislation it is my recommendation that Scheme "C" be used as a basis for the establishment of new local municipalities within the overall area in ques-

tion, and this recommendation has been endorsed by a majority of the Municipal Re-organization Committee.

Consideration of the financial impact on the northern municipality as shown in Scheme "C" has been the subject of discussion both at the Municipal Re-organization Committee and County Council. While no decision has been made by Council on this aspect of municipal re-organization I believe there has been a consensus that special consideration should be shown to that part of the County which under the Toronto-Centred Region Plan is destined to have, at best, a very small growth rate.

Considerable research should be done to determine the best way in which to alleviate the increases in the County's gross budget and the effects of those increases on the northern municipality. I believe that a General Policy statement by County Council at this time requesting the Province to include provision for a split mill rate or some other method that they may determine to be better in any new legislation respecting municipal government in the County of Peel.

At the time of the writing of this submission, the Police Study Committee, appointed by County Council and the Province, has concluded its deliberations and will be presenting its report to a special meeting of County Council on September 7, 1972.

As has already been reported in the press, the Study Committee is recommending to County Council that action be taken as soon as possible to amalgamate the existing Police Forces in the southern part of the County of Peel so that very important deficiencies which now exist in regard to Police facilities may receive the necessary consideration at an early date. This is one more very important reason that action be taken to restructure local government at the upper tier level as soon as possible.

This position paper is respectfully submitted for your consideration and recommendation to County Council.

"L. H. Parsons"

Warden.

"Re: Municipal Re-Organization — County of Peel

In reply to your letter dated August 29th, 1972, please be advised that, during a meeting of Bolton Council, on August 29th, the following motion was passed:

'RESOLVED that whereas the Council of the Village of Bolton is opposed to the organization of Bolton, Albion Township, Caledon Township and the Village of Caledon East into one borough in the regional reorganization of municipal governments, the Council, in the interest of self-determination, therefore reluctantly agrees to accept Plan "C" and the position paper of Warden Parsons as a basis for the Regional Plan for Peel County.' Township of Caledon

September 5, 1972.

"County Council be informed that the Township of Caledon finds that the Position Paper of Warden Parsons reflecting his views on Municipal Re-organization is far too important a subject for the Township to comment upon with only one day's notice. It is felt that the request for comments upon such short notice is unreasonable. The Township wishes to reiterate its position

that it has been presented with no evidence suggesting the benefits to the Township from Municipal Re-Organization."

Township of Chinguacousy

September 7, 1972.

"Re: Municipal Re-Organization — County of Peel

I acknowledge receipt of your letter dated August 29th, 1972 with regard to the above captioned.

The correspondence was placed before the Council of the Township of Chinguacousy at their regular meeting of September 5th, 1972 for consideration. I have been directed to advise that the Council confirmed their position in support of Plan "C" and further that the report from the Town of Brampton was received and opposed as the position in the report is contrary to Plan "C" which the Township endorses."

Township of Toronto Gore

"The following resolution was passed at our Council meeting of September 5, 1972:

'At County Council we instruct our Reeve to vote in favour of the centre section of Plan "C" only if the wording of the motion includes—

- (1) provision for a split mill rate for rural - urban municipalities;
- (2) that each existing municipality retain a vote in the new county realignment.' "

We recommend approval of the following resolution passed by your Committee:

"Whereas, the Town of Mississauga has requested the Railway Committee of the Board of Transport Commissioners to authorize an at grade crossing on Erin Mills Parkway at the Canadian Pacific Railway until such time as warrants are met for a grade separation, or alternatively that the Railway Committee of the Board of Transport Commissioners order a grade separation at the above location using as justification the fact that a very substantial volume of traffic will be removed from the level crossing at Mississauga Road and the Canadian Pacific Railway as proposed by Peel County Council at the time of the decision not to rebuild Mississauga Road and a grade separation at the Mississauga Road location;

Therefore be it resolved that Peel County Council support the position of the Town of Mississauga in the matter of the crossing of the Canadian Pacific Railway tracks at Erin Mills Parkway provided the Town of Mississauga commits to assume whatever local costs may be involved for the construction of the grade separation whether it be at this time or at some time in the future;

And further, that the Warden and the Chairman of the Roads and Transportation Committee be authorized to attend the meeting of the Railway Committee on September 26, 1972."

REPORT BY THE WARDEN ON MEETING WITH DOUGLAS AIRCRAFT COMPANY OF CANADA LIMITED

November 7, 1972

Roads and Transportation Committee,
County of Peel.

The writer and the Chairman of the Roads and Transportation Committee, Mr. J. I. McMullin, met with Mr. Charles Gollihar and Mr. Roger Hiscott of Douglas Aircraft Company of Canada Ltd. on Wednesday, October 25, 1972. The purpose of the meeting was to discuss the position of Douglas Aircraft in relation to easements in favour of Douglas Aircraft on the property owned by the Canadian Imperial Bank of Commerce, Malton.

It was the consensus at the meeting that the County of Peel would give Douglas Aircraft first right of refusal of any excess land on the southwest corner of Airport Road and Derry Road after reconstruction of the proposed interchange. In return, Douglas Aircraft would agree to waive easement rights on the Bank property provided, of course, they are permitted to continue to use the storm sewer presently on the property until such time as alternate methods of draining their lands are determined.

If the Roads and Transportation Committee agrees with this action, I believe the County Solicitor should be authorized to prepare an agreement for consideration of Council at the next session.

"L. H. Parsons"

L. H. PARSONS,
Warden.

When a pay date falls within a vacation period, advance pay will be issued on the previous pay date, if requested by the employee at least two weeks prior.

Rates of Pay

For each position there is a salary scale or an hourly rate.

Hourly rated employees transferred for the Corporation's convenience for a period of one full shift or more to a higher rated classification, shall be paid the higher rate for all time worked in that classification.

Casual employees in salaried positions are paid an hourly rate based on a salary one step above the minimum level of the salary applicable for the position.

Accumulated sick leave credits from previous employment with a public body shall be honoured in full by the Corporation provided that a certificate of such credit is submitted and that the interrupted service does not exceed 6 weeks.

Subsequent to December 31st of each year, employees will receive a memorandum from Payroll stating the number of days or hours of accumulated sick leave credits.

Absence Without Leave

Any absence from work without the approval of the Department Head or his designate is considered absence without leave. In addition to forfeiture of pay, unauthorized absence may result in dismissal.

Group Life Insurance

Group Life Insurance is carried with the North American Life Assurance Company. Coverage for all employees (**excluding permanent part time**) begins with the fourth month of employment, and is a condition of employment. 85% of the Group Life Insurance premium is paid by the Corporation.

The amounts of coverage are as follows:

The Corporation is a member of the Ontario Municipal Employees Retirement System. Pension entitlement for new participants begins with the seventh calendar month of employment. Transfer of existing memberships shall become effective immediately.

Contributions and benefits of the two pension plans are integrated. The Corporation contributes an amount equal to the employee's contribution.

Vacations

The Corporation's vacation plan for employees provides for two weeks' vacation after one full year of service, three weeks' vacation after five years of service and four weeks' vacation after fifteen years of service. In determining eligibility for vacations, the date of May 31st of the current year is used. Method of Vacation Pay for Employees in Salaried Positions

Such employees shall receive pay at their regular rate during these vacations. If service with the Corporation in a salaried position was less than one year as of May 31st, the employee shall be paid 1/12 of two weeks as vacation pay for each completed calendar month of continuous service. (Service starting prior to the 16th constitutes a calendar month for vacation purposes during the first year of employment.) This payment will be made during the month of June. Vacation leave without pay of one working day for each completed calendar month of continuous service, up to a maximum of ten working days, shall be granted.

Method of Vacation Pay for Employees in Hourly Rated Positions

This payment will be made during the month of June. Vacation leave without pay of one working day for each completed calendar month of continuous service, up to a maximum of ten working days, shall be granted for service with the Corporation of less than one year. Vacation leave without pay is granted in accordance with the following schedule:

One year of continuous service	—2 weeks
Five years of continuous service	—3 weeks
Fifteen years of continuous service	—4 weeks

The selection of vacation dates will, where practical, be approved on the basis of seniority in each department. Each department shall determine the number of employees who will be on vacation at one time.

Vacations shall not be cumulative from year to year, and employees with more than one year of service shall not draw pay in lieu of vacations, except under special circumstances which must be authorized by the Corporation.

Department Heads, Deputies and/or Assistants, so classified by by-law, shall be permitted to accumulate vacations from year to year to a maximum of two years' vacation credits.

When an employee terminates prior to the vacation period as defined, the following vacation pay schedules shall apply:

1. Less than one full year of service. Accumulated vacation pay as of May 31st, if not already taken, plus 2% of earnings from May 31st to date of termination.

4. Over fifteen full years of service. Accumulated vacation pay as of May 31st, if not already taken, plus 8% of earnings from May 31st to date of termination.

Hours of work are governed by each department.

Employees in hourly rated positions are paid time-and-one-half for hours worked in excess of normal work hours.

Salaried employees, except managerial positions, shall receive time off by mutual agreement for all time worked in excess of normal hours, or they may, at the discretion of the Corporation, be paid at their regular rate in lieu of time off.

COUNTY OF PEEL AUDITOR'S REPORT

To the Members of Council, Inhabitants and Ratepayers
of the Corporation of the County of Peel

We have examined the 1972 financial statements of the Corporation of the County of Peel which are listed on the attached index. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Corporation of the County of Peel as at December 31, 1972 and the results of its operations for the year then ended, in accordance with accounting principles generally accepted for Ontario municipalities, applied on a basis consistent with that of the preceding year.
